EDELWEISS

Analytics

Our Basecamp tier of Analytics **feeds your POS data into Edelweiss**, so you can see, while buying your frontlist titles, how comparable titles have performed in your store. Seeing your sales and inventory history on comparable titles while placing orders **dramatically speeds up the process**, giving you time back. Your publisher reps are able to see this information as well, giving them the agility to make better suggestions customized to your needs.

Comparable Titles (3 Hidden)
