Passionately Creating Safer and More Productive Workplaces

Largest Full Service Independent Industrial Safety Distributor

- 600+ associates
- \$260+ million in sales
- \$38+ million in inventory
- 100+ years in business
- 38 Locations nationwide

TRUSTED PARTNER

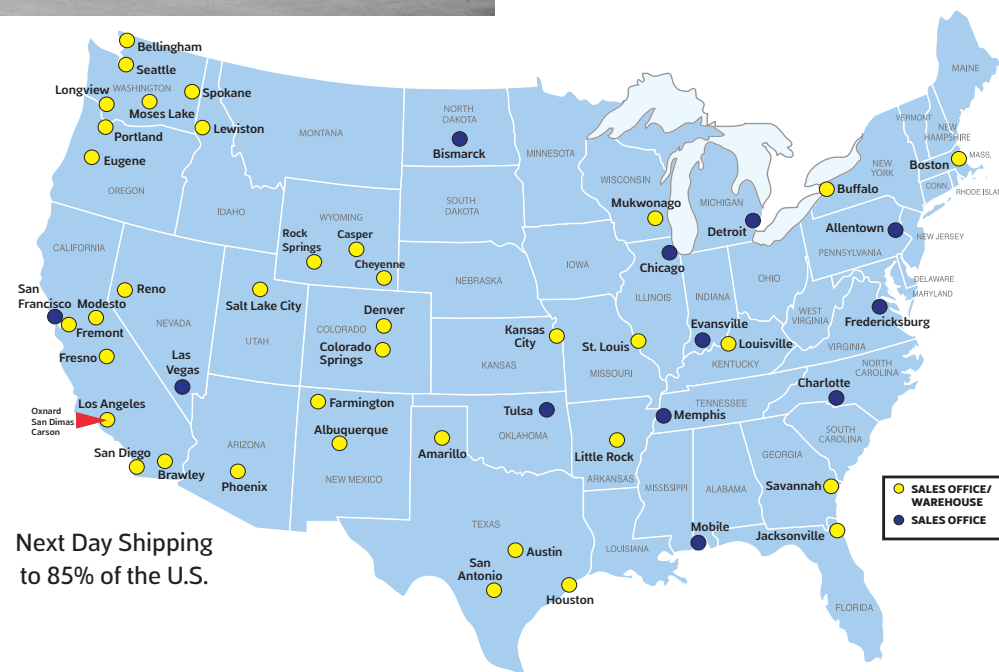

Mallory's customer-centric approach delivers the personal touch of a local supplier with the resources of a national company. We aim to truly become a trusted partner in your growth, productivity and worker safety. Being independently owned, we give you the personal service you need to keep your employees safe and your business operating

EXPERIENCED TEAM

At Mallory, our experienced team works with you to explore new and creative ways to keep your people safe, increase revenue, and grow your company.

ONE SOURCE

Mallory is your one source for safety, industrial, fire, law enforcement, cleanroom, haz-mat response and janitorial supplies.

Next Day Shipping to 85% of the U.S.

Vendor Managed Inventory

KEY ITEMS ON SITE

Mallory's experts in safety, efficiency, and logistics will design a program with you that controls the process from the flow of inventory to establishing stocking levels to keep key items on site.

TAILORED TO YOUR NEEDS

Your VMI program is tailored to meet specific worksite needs and expand or contract to help you reduce duplicate inventory. We can help you control costs through standardization across your company.

National Account Support

Mallory supplies safety, PPE and supply-chain products to many of the largest industrial, manufacturing, energy, processing and utility operations in North America.

SEAMLESS PURCHASING

Our systems are designed to provide seamless purchasing for all sizes of operations from regional worksites to global manufacturing facilities.

COAST TO COAST SUPPORT

Mallory's knowledgeable team and coast-to-coast regional sales, service and warehouse locations provide the inventory, product selection, and services to keep your operation safe and productive.

Government Sales

Mallory provides approved safety and public safety equipment and services to:

- States
- Cities
- Counties
- Municipalities
- Federal/Military
- Special Operations
- Educational Institutions
- Non-profits
- Omnia Partners (previously US Communities)
- GSA Schedule 84

Our experience enables us to deliver quick fulfillment of year-end grants as well as consolidating large lists of agency requirements in one complete contract.

Rental Services

Mallory manages a comprehensive rental program to make sure you have the tested, serviced and updated equipment you need, where and when you need it – Mallory's Product Specialists can help you match the right equipment with your job requirements.

Our million-dollar rental inventory includes:

- Instruments (Gas Detection, Sound, IAQ, Thermal)
- Fall Protection
- Respiratory and Breathing Air Equipment
- Confined Space Equipment
- Fire Protection Equipment

Our rental fleet is inspected and maintained by our in-house service centers.

Maintenance & Repair

Mallory's elite staff of factory certified experts are dedicated to providing the highest quality service in the industry.

IN HOUSE SERVICE CENTER

Our technicians repair and service all major brands of equipment in-house at Service Centers across the United States, or at your facility.

Mallory works on:

- Portable and Fixed Gas Detection
- Fall Protection, Respirators (SCBA & Airline)
- Hazmat Suit Pressure Testing
- Compressors
- Fire Equipment
- Hoists
- Certain Industrial Equipment

Mallory-ENSA Training

The Mallory-ENSA training facility is the largest and most modern at-height training facility in North America. Our at-height safety training courses are designed specifically to instruct and train workers and supervisors about the hazards of tower work.

We offer accredited safety and environmental consulting and training services. Facility site surveys with recommendations are also available.

Additional training includes:

- Confined Space
- EM385 1-1/USACE
- HAZWOPER 16/40 hours
- Industrial/Construction Training
- Bucket and Truck Rescue
- At-Height Rescues

EXPERIENCED TRAINERS

ENSA's training facilities and experienced, certified trainers are strategically located around North America to deliver training where needed.

Safety Management

The Mallory Professional Support division provides operations with full-time or part-time safety leadership and the highest quality EHS services and project staffing. We can provide:

- Safety Inspectors
- Safety Culture Assessments
- Project Management
- Safety Services
- Safety Training

Our comprehensive network of safety professionals across several industries is vetted and selected to ensure our clients get the most effective personnel for their programs.

In-House Electric Glove Testing Lab

Mallory offers accurate, convenient testing services for new or in-service electrical rubber gloves, Class 00 to 3.

Our rigorous, multi-step testing process ensures maximum safety and reliability for your electrical gloves. Each pair undergoes meticulous inspection, cleaning, and electrical testing according to strict industry standards.

Respiratory Fit Testing In House or On Site

Ensure worker safety and regulatory compliance with our professional respirator fit testing services. We utilize advanced quantitative testing methods to accurately measure respirator seal integrity, providing concrete evidence of protection. Our on-site testing capabilities offer convenience and efficiency for businesses with large respirator inventories.

Turnaround Services

Our efficient asset management software allows operations to provide necessary worker PPE for your jobsite and turnaround procedures. We capture usage data for reporting purposes and analysis for improved efficiencies.

Fire Apparatus

Mallory has over 25 years of experience with apparatus development, repair, service and rebuilding on all makes and models of fire equipment and pumps. We can create new equipment to fit your local and regional specifications and maintain your brush trucks, pumps, trailers and water tanks.

Vending Machines/VMI Solutions

Providing safety equipment by using supply-chain vending machines helps you:

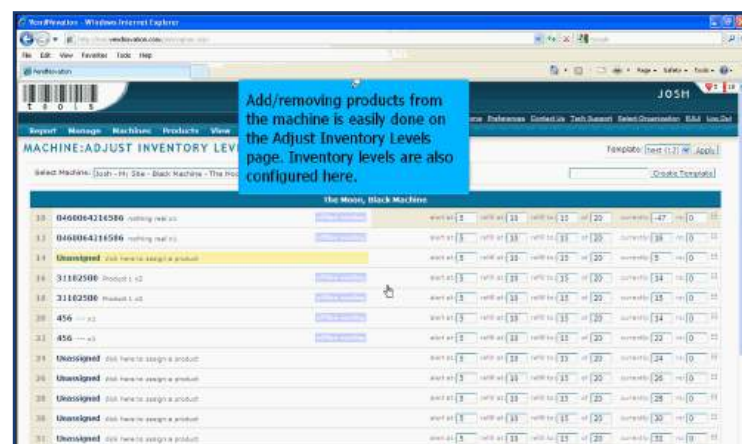

- Eliminate stockouts
- Increase productivity
- Reduce walking time, consumption and wasted products
- Track worksite (and worker) safety product use
- Provide 24/7 onsite availability
- Consolidate safety product purchases under one contract

CUSTOMIZED HARDWARE/SOFTWARE

Mallory's in-house Vending Department delivers customized hardware and software solutions that provide up to 30% safety product cost savings. Vending software solutions allow you to track and bill specific product use to specific projects or customers.

INCREASED EFFICIENCY

Our Virtual Machine software allows you to automate and increase efficiency in tool rooms and cribs.

Custom Imprinting by Mallory Safety and Supply

Set your company apart with imprinted PPE. Manufactured in-house or by our suppliers, we can quickly meet your needs for a custom look.

PAD PRINTING

Designed to mold around curved surfaces, pad printing enables Mallory to logo hard hats, safety eyewear and other PPE. Hard hats can be printed on the front, back or sides with one or two colors.

HEAT TRANSFERS

Special material is used to reproduce multi-color logos and apply onto clothing surfaces.

SCREEN PRINTING

This process allows us to print one- or two-colored logos on the back, front pockets and sleeves of hi-vis vests and other clothing. Screen printing can also be used on other soft items such as gear bags and gloves.

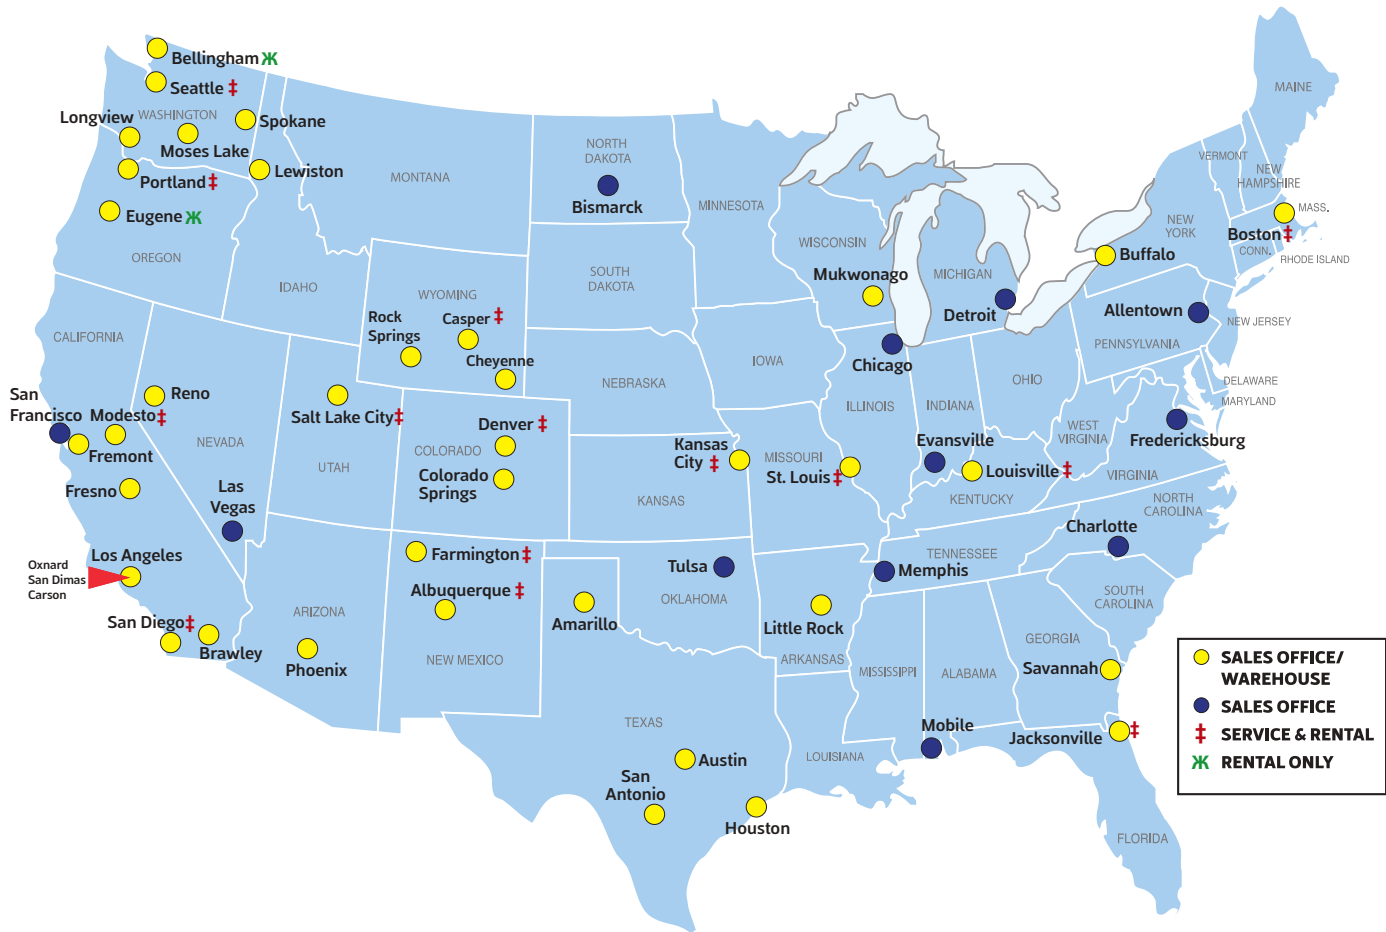

EMBROIDERY

Digitized to stitch-ready perfection with up to 15 colors per design.
