Up-to-Date Regulatory Content

Fueled by an integrated regulatory database, Dakota's ProActivity Suite helps organizations address local compliance while synchronizing global EHS programs. Our plain-language library of action-forcing EHS requirements drives ongoing compliance by notifying site leaders of relevant regulatory changes while clarifying complex subject matter.

Dakota's in-house analysts continually refine and enrich the Regulatory Database ensuring your site staff are aware of all relevant changes.

Site-specific Applicability

- ✓ *Decision-Tree-Logic^{SM}* helps ensure accurate Regulatory Registers
- ✓ Constantly enriched regulatory requirements and audit protocols
- ✓ Plain-language overviews provide guidance and clarification

Compliance Calendars

- ✓ Profile-driven, recurring tasks linked to regulatory citations
- ✓ Tasks assigned by user, role, or function with automated alerts
- ✓ Dashboards provide roll-up visibility into global compliance status

Business Intelligence

- ✓ *Parametric Filtering™* supports on-the-fly data analysis
- ✓ Configurable cross-product insights and KPIs
- ✓ Scheduled reports and change alerts delivered via email

Professional Services & Support

Dakota's Professional Services teams combine hands-on EHS experience with technical expertise to speed implementation, elevate compliance certainty, and help you achieve your EHS goals. Our in-house experts can assist with projects, ranging from on-site and remote audits to permit analysis, as well as Managed Services for compliance calendars, safety metric analysis, and optimization of system utilization.

Consulting Services

- ✓ Regulatory Assistance
- ✓ Audit Services
- ✓ Compliance Calendar Creation
- ✓ Permit Analysis and Task Writing
- ✓ Custom Protocol Development
- ✓ Risk Analysis
- ✓ Lean Six Sigma Projects

"Dakota's proactive compliance solutions have helped us remain committed to our corporate sustainability policy of People, Planet and Performance."
