

MODERATE INCOME/ WORKFORCE HOUSING

National Equity Fund (NEF) is a leading non-profit investment manager and tax credit syndicator with a mission to create and deliver innovative, collaborative financial solutions to expand the creation and preservation of affordable housing.

NEF offers additional financial solutions to help close the affordable housing gap in multiple ways that are aligned with our mission. Our expertise in pre-development lending, preservation debt and equity, and workforce debt and equity allows us to further assist our partners to expand their efforts to provide low-income and moderate-income affordable housing.

FINANCING SOLUTIONS

NEF has diversified our product offerings to further amplify our impact on the creation and preservation of affordable housing and to assist our investor and developer partners as they seek to expand their efforts in providing housing for low and moderate income households.

Our moderate income/workforce housing products provide capital investments in existing multifamily and new construction housing that fills the needs of moderate income individuals and families in the “missing middle” who struggle to find affordable housing options in neighborhoods close to job opportunities.

Project financing can be structured in the form of equity, mezzanine or first mortgage debt, which enables prospective partners to acquire, renovate or develop projects where the majority of units are affordable for households earning 80% of Area Median Income (AMI).

Our professionals are committed to excellence and providing our partners with everything they need to succeed. If you are interested in learning more about our workforce housing solutions, we are ready to get to work for you.
