

SWS Multicultural Mentoring Program (SWaMMP)

The SWS Multicultural Mentoring Program (SWaMMP) works to increase diversity within the Society of Wetland Scientists and throughout the environmental sciences. SWaMMP enables undergraduate and graduate students from underrepresented groups to attend and receive travel benefits to the SWS Annual Meeting, held in Grand Rapids, Michigan, May 16-20, 2022. The Annual Meeting offers students valuable career guidance and opportunities to network with leading wetland science professionals from around the world.

SWaMMP provides:

- Conference registration, lodging and all travel expenses to the SWS Annual Meeting
- Individual career mentoring
- Postgraduate and career workshops
- Networking opportunities to meet professionals from diverse fields
- Opportunity to present a research poster
