

Description

Meta Patch optimizes energy metabolism in a totally drug-free, non-invasive way.

The brain plays a central role in the homeostatic regulation of energy metabolism. The brain integrates multiple peripheral metabolism and neuro inputs.

This information, on energy intake and body energy stores, is transferred to specialized neurons in the hypothalamus and brainstem. In order to maintain energy homeostasis, the brain regulates diverse aspects of the body metabolism.

The Meta patch triggers neuroplastic optimization and harmonization of this communication loop between the hypothalamus and brainstem by generating innate neuro-signals decoded by the CNS based on the "pattern theory" of haptic neuro coding.

This optimized communication leads to optimized energy metabolism.

The Neurohaptic Advanced Metabolism Patch are:

- Drug Free
- Non-Invasive
- Non-Electrical
- Chemical Free
- Provide Immediate Benefits
- Easy to Use
- Comfortable to wear
- Inconspicuous
- Affordable
- Water Resistant

Contents: Hypo-allergenic Polyethylene Adhesive Patch.

Please note - Because of the nature of this product, all sales are final. Patches are not refundable.

When using the Patches, if you experience unfavorable response such as skin rashes and itchiness in the application area, please discontinue the use immediately.
