of households fall into this segment

In the United States

1.6%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Residents in the highly mobile and educated Metro Renters market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastestgrowing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Residents' income is close to the U.S. average, but they spend a large portion of their wages on rent, clothes and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

Our Neighborhood

- Over half of all households are occupied by singles, resulting in the smallest average household size among the markets, 1.66.
- Neighborhoods feature 20+ unit apartment buildings, typically surrounded by offices and businesses.
- Renters occupy close to 80% of all households.
- Public transportation, taxis, walking and biking are popular ways to navigate the city.

Socioeconomic Traits

- Well-educated consumers, many currently enrolled in college.
- Very interested in the fine arts and strive to be sophisticated; value education and creativity.
- Willing to take risks and worklong hours to get to the top of their profession.
- Become well informed before purchasing the newest technology.
- Prefer environmentally safe products.
- Socializing and social status very important.

Market Profile

- · Enjoy wine at bars and restaurants.
- Shop at Trader Joe's and Whole Foods for groceries, partial to organic foods.
- Own a Mac computer and use it for reading/writing blogs, accessing dating websites, and watching TV programs and movies.
- Favorite websites Facebook, Twitter, YouTube and LinkedIn.
- Use a tablet for reading newspapers and magazines.
- Participate in leisure activities including yoga, Pilates and downhill skiing.
- Shop for clothes at Banana Republic, The Gap and Nordstrom.

1.6%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Professional Pride consumers are welleducated career professionals who have prospered through the Great Recession. To maintain their upscale suburban lifestyles, these goal-oriented couples work, often commuting far and working long hours. However, their schedules are fine-tuned to meet the needs of their school-age children. They are financially sawy, they invest wisely and benefit from interest and dividend income. So far. these established families have accumulated an average of \$1.5 million in net worth, and their annual household income runs at more than twice the U.S. average. They take pride in their newer homes and spend valuable time and energy upgrading. Their homes are furnished with the latest in home trends, including finished basements equipped with home gyms and in-home theaters.

Our Neighborhood

- Typically owner-occupied, single-family homes are in newer neighborhoods 59% of units were built in the last 20 years.
- Neighborhoods are primarily located in the suburban periphery of large metropolitan areas.
- Most households own two or three vehicles, long commutes are the norm.
- Homes are valued at more than twice the U.S. median home value, although three out of four homeowners have mortgages to pay off.
- Families are mostly married couples (almost 80% of households), and more than half of these families have kids. Their average household size, 3.11, reflects the presence of children.

Socioeconomic Traits

- Professional Pride consumers are highly qualified in the science, technology, law or finance fields, they've worked hard to build their professional reputation or their start-up businesses
- These consumers are willing to risk their accumulated wealth in the stock market.
- They have a preferred financial institution, regularly read financial news, and use the Internet for banking transactions.
- These residents are goal oriented and strive for lifelong earning and learning.
- Life here is well organized; routine is a key ingredient to daily life.

Market Profile

- These frequent travelers take several domestic trips a year, preferring to book their plane tickets, accommodations and rental cars via the Internet.
- Residents take pride in their picture-perfect homes, which they continually upgrade. They shop at Home Depot and Bed Bath & Beyond to tackle the smaller home improvement and remodeling tasks but contract out the larger projects.
- To keep up with their busy households, they hire housekeepers or professional cleaners.
- Residents are prepared for the ups and downs in life; they maintain life insurance; homeowners and auto insurance; as well as medical, vision, dental, and prescription insurance through work. They are actively investing for the future; they hold 401(k) and IRA retirement plans, plus securities.
- Consumers spend on credit but have the disposable income to avoid a balance on their credit cards. They spend heavily on Internet shopping; Amazon.com is a favorite website.
- Consumers find time in their busy schedules for themselves. They work out in their home gyms, owning at least a treadmill, an elliptical or weightlifting equipment. They also visit the salon and spa regularly.
- All family members are avid readers; they read on their smartphones, tablets and e-readers but also read hard copies of epicurean, home service and sports magazines.
- Residents, both young and old, are tech savvy; they not only own the latest and greatest in tablets, smartphones and laptops but actually use the features each has to offer.

In Style

2.2%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

In Style denizens embrace an urbane lifestyle that includes support of the arts, travel and extensive reading. They are connected and make full use of the advantages of mobile devices. Professional couples or single households without children, they have the time to focus on their homes and their interests. The population is slightly older and already planning for their retirement.

Our Neighborhood

- · City dwellers of large metropolitan areas.
- Married couples, primarily with no children or single households; average household size at 2.33.
- Home ownership average at 69%; more than half, 51%, mortgaged.
- Primarily single-family homes, in older neighborhoods (built before 1980), with a mix of town homes and smaller (5-19 units) apartment buildings.
- Median home value at \$213,500.
- Vacant housing units at 8.8%.

Socioeconomic Traits

- College educated: 46% are graduates; 75% with some college education.
- Low unemployment is at 5.6%; higher labor force participation rate is at 68% with proportionately more two-worker households.
- Median household income of \$65,600 reveals an affluent market with income supplemented by investments and a substantial net worth.
- Connected and knowledgeable, they carry smartphones and use many of the features.
- Attentive to price, they use coupons, especially mobile coupons.

Market Profile

- Partial to late model SUVs or trucks.
- Homes integral part of their style; invest in home remodeling/maintenance, DIY or contractors; housekeeping hired.
- Prefer organic foods, including growing their own vegetables.
- Financially active, from a variety of investments to home equity lines of credit.
- Meticulous planners, both well insured and well invested in retirement savings.
- Generous with support of various charities and causes
- Actively support the arts, theater, concerts and museums.

Bright Young Professionals

dominant segment for this area

of households fall into this segment

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. One out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes: over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value and average rent are close to the U.S. averages. Residents of this segment are physically active and up on the latest technology.

Our Neighborhood

- Approximately 56% of the households rent;
 44% own their homes.
- Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent and single-person households.
- Multi-unit buildings or row housing make up 55% of the housing stock (row housing, buildings with 5-19 units); 44% built 1980-99.
- Average rent is slightly higher than the U.S. average.
- Lower vacancy rate is at 8.9%.

Socioeconomic Traits

- Education completed: 36% with some college or an associate's degree, 30% with a bachelor's degree or higher. Education in progress is 10%.
- Unemployment rate is lower at 7.1%, and labor force participation rate of 73% is higher than the U.S. rate.
- These consumers are up on the latest technology.
- They get most of their information from the Internet
- Concern about the environment impacts their purchasing decisions.

Market Profile

- · Own U.S. savings bonds.
- Own newer computers (desktop, laptop or both), iPods and 2+ TVs.
- Go online to do banking, access YouTube or Facebook, visit blogs, and play games.
- Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information.
- Find leisure going to bars/dubs, attending concerts, going to the zoo, and renting DVDs from Redbox or Netflix.
- Read sports magazines and participate in a variety of sports, including backpacking, basketball, football, bowling, Pilates, weight lifting and yoga.
- Eat out often at fast-food and family restaurants.

Enterprising Professionals

Thisisthe

#5

dominant segment for this area

In this area

7.3%

of households fall into this segment

In the United States

1.4%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Enterprising Professionals residents are well educated and climbing the ladder in STEM(science, technology, engineering and mathematics) occupations. They change jobs often and therefore choose to live in condos, townhomes or apartments; many still rent their homes. The market is fast-growing, located in lower-density neighborhoods of large metro areas. Enterprising Professionals residents are diverse, with Asians making up over onefifth of the population. This young market makes over one and a half times more income than the U.S. median, supplementing their income with high-risk investments. At home, they enjoy the Internet and TV on high-speed connections with premier channels and services.

Our Neighborhood

- Almost half of households are married couples, and 30% are single-person households.
- Housing is a mixture of suburban single-family homes, row homes, and larger mult-iunit structures.
- Close to three quarters of the homes were built after 1980; 22% are newer, built after 2000.
- Renters make up nearly half of all households.

Socioeconomic Traits

- Median household income one and a half times that of the U.S.
- Over half hold a bachelor's degree or higher.
- Early adopters of new technology in hopes of impressing peers with new gadgets.
- Enjoy talking about and giving advice on technology.
- Half have smartphones and use them for news, accessing search engines and maps.
- Work long hours in front of a computer.
- Strive to stay youthful and healthy, eat organic and natural foods, run and do yoga.
- Buy name brands and trendy clothes online.

Market Profile

- Buy digital books for tablet reading, along with magazines and newspapers.
- Frequent the dry cleaner.
- · Go on business trips, a major part of work
- Watch movies and TV with video-on-demand and HDTV over a high-speed connection.
- Convenience is key—shop at Amazon.com and pick up drugs at the Target pharmacy.
- Eat out at The Cheesecake Factory and Chickfil-A; drop by Starbucks for coffee.
- Leisure activities include gambling, trips to museums and the beach.
- Have health insurance and a 401(k) through work

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- Market conditions and forecasts based on listing and public records data.
- Census and employment data from the U.S. Census and the U.S. Bureau of Labor Statistics.
- Demographics and trends data from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- Business data including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- School data and reviews from Niche.
- Specialty data sets such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
