The Great Outdoors

Thisisthe

#1

dominant segment for this area

In this area

21.6%

of households fall into this segment

In the United States

1.5%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Neighborhoods in The Great Outdoors segment are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Atthough retirement beckons, most of these residents still work, with incomes slightly above the U.S. level.

Our Neighborhood

- More than 55% of households are marriedcouple families, 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available.
- Residents live in small towns and rural communities throughout the West, South and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles, average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home.

Socioeconomic Traits

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8%, but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

Market Profile

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' dubs and support various civic causes.
- Technology is not central in their lives light use of Internet connectivity for shopping and entertainment.
- Most households have pets-dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing and boating.

In Style

Thisisthe

#2

dominant segment for this area

In this area

8.2%

of households fall into this segment

In the United States

2.2%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

In Style denizens embrace an urbane lifestyle that includes support of the arts, travel and extensive reading. They are connected and make full use of the advantages of mobile devices. Professional couples or single households without children, they have the time to focus on their homes and their interests. The population is slightly older and already planning for their retirement.

Our Neighborhood

- · City dwellers of large metropolitan areas.
- Married couples, primarily with no children or single households; average household size at 2.33.
- Home ownership average at 69%; more than half, 51%, mortgaged.
- Primarily single-family homes, in older neighborhoods (built before 1980), with a mix of town homes and smaller (5-19 units) apartment buildings.
- Median home value at \$213,500.
- Vacant housing units at 8.8%.

Socioeconomic Traits

- College educated: 46% are graduates; 75% with some college education.
- Low unemployment is at 5.6%; higher labor force participation rate is at 68% with proportionately more two-worker households.
- Median household income of \$65,600 reveals an affluent market with income supplemented by investments and a substantial net worth.
- Connected and knowledgeable, they carry smartphones and use many of the features.
- Attentive to price, they use coupons, especially mobile coupons.

Market Profile

- Partial to late model SUVs or trucks.
- Homes integral part of their style; invest in home remodeling/maintenance, DIY or contractors; housekeeping hired.
- Prefer organic foods, including growing their own vegetables.
- Financially active, from a variety of investments to home equity lines of credit.
- Meticulous planners, both well insured and well invested in retirement savings.
- Generous with support of various charities and causes
- Actively support the arts, theater, concerts and museums.

About this segment

Senior Escapes

Thisisthe

#3

dominant segment for this area

In this area

7.8%

of households fall into this segment

In the United States

0.9%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Senior Escapes neighborhoods are heavily concentrated in the warmer states of Florida, California and Arizona. These areas are highly seasonal, yet owner occupied. Many homes began as seasonal getaways and now serve as primary residences. Forty percent are mobile homes; half are single-family dwellings. About half are in unincorporated and more rural areas. Over a quarter of the population are 65-74 years old. Most are white and fairly conservative in their political and religious views. Residents enjoy watching TV, going on cruises, playing Bingo, golfing, boating and fishing. They are very conscious of their health and buy specialty foods and dietary supplements.

Our Neighborhood

- Neighborhoods include primary and second homes in rural or semi-rural settings.
- One quarter of all housing units are vacant; many are for seasonal use only.
- One-third of the households are married couples without children; a third are singleperson households.
- Half the homes are single family; another 40% are mobile homes.
- Three-quarters of all homes are owner occupied, and the majority own their homes free and clear.
- Still actively driving, most households have one or two vehicles.

Socioeconomic Traits

- Labor force participation is low, but more than half the households are drawing Social Security income.
- They have conservative political views.
- They spend majority of their time with spouse/significant other or alone.
- They are limited by medical conditions but still enjoy gardening and working on their vehicles.
- They take good care of vehicles, but haven't bought a new one in over five years.
- They only spend within their means, do their banking in person, and do not carry a balance on their credit card.

Market Profile

- Stock up on good deals, especially high-fiber, low-calorie, low-fat and sugar-free foods.
- Own 3+ TVs and watch news, sports, CMT, Golf Channel and AMC.
- Belong to veterans' clubs; maintain AARP and AAA memberships.
- Get most information from TV and the Sunday newspaper; struggle with computers and the Internet
- Travel in the U.S. via guided tours but weary of security issues.
- Frequently dine out at Denny's, Golden Corral and Cracker Barrel

College Towns

Thisisthe

#4

dominant segment for this area

In this area

6.8%

of households fall into this segment

In the United States

1.0%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

Our Neighborhood

- These are non-family households with many students living alone or with roommates for the first time.
- This segment is a mix of densely developed student housing and dorms with local residences.
- Off-campus, low rent apartments comprise half of the housing stock
- Over three-quarters of the households are renter occupied, with one in ten remaining vacant.
- One-third of homes are single family; mostly occupied by local residents who own their homes.
- This market is bike and pedestrian friendly.

Socioeconomic Traits

- Their limited incomes result in thrifty purchases.
- They do not eat the healthiest foods, nor do they see a doctor regularly.
- They dress to impress with the latest fashions of the season.
- They prefer environmentally friendly products and vehicles that get good gas mileage.
- They're heavily influenced by celebrity endorsements and trends in magazines.
- They feel anything that can be done online is easier than in person.
- They have liberal political views.

Market Profile

- Own a laptop and a portable MP3 player.
- Watch movies and TV programs online; MTV and Comedy Central on TV.
- Use the Internet for social media connections, blogging, paying bills and downloading music.
- Have cell phones only (no landlines) and enjoy customizing them.
- Popular activities: backpacking, Pilates and Frisbee.
- . Go out to the movies and out for drinks.

Emerald City

Thisisthe

#5

dominant segment for this area

In this area

6.7%

of households fall into this segment

In the United States

1.4%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Emerald City's denizens live in lowerdensity neighborhoods of urban areas throughout the country. Young and mobile, they are more likely to rent. Well educated and well employed, half have a college degree and a professional occupation. Incomes close to the U.S. median come primarily from wages and selfemployment. This group is highly connected, using the Internet for entertainment and making environmentally friendly purchases. Long hours on the Internet are balanced with time at the gym. Many embrace the "foodie" culture and enjoy cooking adventurous meals using local and organic foods. Music and art are major sources of enjoyment. They travel frequently, both personally and for business.

Our Neighborhood

- There are mostly older, established neighborhoods with homes built before 1960; around 30% built before 1940.
- Just over half of all homes are renter occupied.
- Single-person and non-family types make up over half of all households.
- Median home value and average rent are slightly above the U.S. levels; around half of owned homes are worth \$150,000-\$300,000.

Socioeconomic Traits

- Well educated, these consumers research products carefully before making purchases.
- They buy natural, green and environmentally friendly products.
- Very conscious of nutrition, they regularly buy and eat organic foods.
- Cell phones and text messaging are a huge part of everyday life.
- They place importance on learning new things to keep life fresh and variable.
- They are interested in the fine arts and especially enjoy listening to music.

Market Profile

- Liberal segment that contributes to NPR and PBS.
- Shop at Trader Joe's and Whole Foods.
- Budget time—utilize home cleaning services so there's time for yoga.
- Use the web for professional networking, blogging and online dating.
- Read magazines and books on a tablet, sometimes while exercising at home.
- Go to art galleries and make art at home.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- Public records data including tax, assessment, and deed information.
 Foreclosure and distressed data from public records and RealtyTrac.
- Market conditions and forecasts based on listing and public records data.
- Census and employment data from the U.S. Census and the U.S. Bureau of Labor Statistics.
- Demographics and trends data from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- Business data including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- School data and reviews from Niche.
- Specialty data sets such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
