About this segment

The Great Outdoors

This is the

#1

dominant segment
for this area

In this area

11.9%

of households fall
into this segment

In the United States

1.5%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Neighborhoods in The Great Outdoors segment are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the U.S. level.

Our Neighborhood

- More than 55% of households are married-couple families; 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available.
- Residents live in small towns and rural communities throughout the West, South and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home.

Market Profile

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' clubs and support various civic causes.
- Technology is not central in their lives: light use of Internet connectivity for shopping and entertainment.
- Most households have pets—dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing and boating.

Socioeconomic Traits

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8%, but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

About this segment

Small Town Simplicity

This is the

#2

dominant segment
for this area

In this area

11.1%

of households fall
into this segment

In the United States

1.9%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Small Town Simplicity includes young families and senior householders that are bound by community ties. The lifestyle is down-to-earth and semi-rural, with television for entertainment and news, and emphasis on convenience for young parents and senior citizens. Residents embark on pursuits including online computer games, scrapbooking and rural activities like hunting and fishing. Since almost 1 in 4 households is below poverty level, residents also keep their finances simple—paying bills in person and avoiding debt.

Our Neighborhood

- They reside in small towns or semi-rural neighborhoods, mostly outside metropolitan areas.
- Homes are a mix of older single-family houses, apartments and mobile homes.
- A majority, 51%, of homes are owner occupied.
- Median home value of \$88,000 is about half the U.S. median.
- Average rent is \$600.
- This is an older market, with almost half of the householders aged 55 years or older, and predominantly single-person households.

Socioeconomic Traits

- Education: 65% with high school diploma or some college.
- Unemployment higher at 11.9%.
- Labor force participation lower at 51%, which could result from lack of jobs or retirement.
- Income from wages and salaries, Social Security or retirement, increased by Supplemental Security Income.
- Price-conscious consumers that shop accordingly, with coupons at discount centers.
- Connected, but not to the latest or greatest gadgets; keep their landlines.
- Community-orientated residents; more conservative than middle-of-the-road.
- Rely on television or newspapers to stay informed

Market Profile

- Small Town Simplicity features a semi-rural lifestyle, complete with trucks (domestic, of course), ATVs and vegetable gardens.
- Hunting, fishing and target shooting are favorite pastimes.
- A large senior population visit doctors and health practitioners regularly.
- However, a largely single population favors convenience over cooking—frozen meals and fast food.
- Home improvement is not a priority, but vehicle maintenance is.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. About this segment

Rooted Rural

This is the
#3
dominant segment
for this area

In this area
10.2%
of households fall
into this segment

In the United States
2.0%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Rooted Rural is heavily concentrated in the Appalachian mountain range as well as in Texas and Arkansas. Employment in the forestry industry is common, and Rooted Rural residents live in many of the heavily forested regions of the country. Nearly 9 of 10 residents are non-Hispanic whites. This group enjoys time spent outdoors, hunting, fishing or working in their gardens. Indoors, they enjoy watching television with a spouse and spending time with their pets. When shopping, they look for American-made and generic products. These communities are heavily influenced by religious faith, traditional gender roles and family history.

Our Neighborhood

- This market is dominated by married couples, few with children at home.
- 80% of homes are owner occupied: primarily single family (73%) or mobile homes (23%).
- Nearly one in five housing units are vacant, with a high proportion for seasonal use.
- Home values are very low—almost half of owned homes are valued under \$100,000.

Socioeconomic Traits

- Thrifty shoppers that use coupons frequently and buy generic goods.
- Far-right political values on religion and marriage.
- Do-it-yourself mentality; grow their own produce and work on their cars and ATVs.
- Pay bills in person and avoid using the Internet for financial transactions.
- Often find computers and cell phones too complicated and confusing.
- Clothes a necessity, not a fashion statement; only buy new clothes when old clothes wear out.

Market Profile

- They own a riding lawn mower, as well as a garden tiller, and have vegetable gardens.
- Only half of the households have a high-speed Internet connection.
- They use a satellite dish to watch CMT, the History Channel and GSN (Game Show Network).
- Pets are popular—dogs, cats, and birds.
- Leisure activities include hunting and fishing.
- They listen to faith-based radio and gospel music.
- Many are on Medicare and frequent the Walmart pharmacy.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Update Frequency: Annually.

About this segment

Heartland Communities

This is the

#4

dominant segment
for this area

In this area

8.6%

of households fall
into this segment

In the United States

2.3%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Well settled and close-knit, Heartland Communities are semirural and semiretired. These older householders are primarily homeowners, and many have paid off their mortgages. Their children have moved away, but they have no plans to leave their homes. Their hearts are with the country; they embrace the slower pace of life here but actively participate in outdoor activities and community events. Traditional and patriotic, these residents support their local businesses, always buy American, and favor domestic driving vacations over foreign plane trips.

Our Neighborhood

- Rural communities or small towns are concentrated in the Midwest, from older Rustbelt cities to the Great Plains.
- Distribution of household types is comparable to the U.S., primarily (but not the majority) married couples,
- more with no children, and a slightly higher proportion of singles that reflects the aging of the population.
- Residents own modest, single-family homes built before 1970.
- They own one or two vehicles; commutes are short.

Socioeconomic Traits

- Retirees in this market depress the average labor force participation rate to less than 60%, but the unemployment rate is comparable to the U.S.
- More workers are white collar than blue collar; more skilled than unskilled.
- The rural economy of this market provides employment in the manufacturing, construction and agriculture industries.
- These are budget-savvy consumers; they stick to brands they grew up with and know the price of goods they purchase. Buying American is important.
- Daily life is busy, but routine. Working on the weekends is not uncommon.
- Residents trust TV and newspapers more than any other media.
- Skeptical about their financial future, they stick to community banks and low-risk investments.

Market Profile

- Traditional in their ways, residents of Heartland Communities choose to bank and pay their bills in person and purchase insurance from an agent.
- Most have high-speed Internet access at home or on their cell phone but aren't ready to go paperless.
- Many residents have paid off their home mortgages but still hold auto loans and student loans. Non-interest checking accounts are common.
- To support their local community, residents participate in public activities.
- Home remodeling is not a priority, but homeowners do tackle necessary maintenance work on their cherished homes. They have invested in riding lawn mowers to maintain their larger yards.
- They enjoy country music and watch CMT.
- Motorcycling, hunting and fishing are popular; walking is the main form of exercise.
- To get around these semi-rural communities, residents prefer domestic trucks or SUVs.
- They prefer to travel in the U.S. and favor the convenience of packaged deals.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Middleburg

This is the
#5
dominant segment
for this area

In this area
8.4%
of households fall
into this segment

In the United States
2.8%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Middleburg neighborhoods transformed from the easy pace of country living to semi-rural subdivisions in the last decade, when the housing boom reached out. Residents are conservative, family-oriented consumers. Still more country than rock and roll, they are thrifty but willing to carry some debt and are already investing in their futures. They rely on their smartphones and mobile devices to stay in touch and pride themselves on their expertise. They prefer to buy American and travel in the U.S. This market is younger but growing in size and assets.

Our Neighborhood

- Semi-rural locales within metropolitan areas.
- Neighborhoods changed rapidly in the previous decade with the addition of new single-family homes.
- Include a number of mobile homes.
- Affordable housing, median value of \$158,000 with a low vacancy rate.
- Young couples, many with children; average household size is 2.73.

Socioeconomic Traits

- Education: 66% with a high school diploma or some college.
- Unemployment rate lower at 7.4%.
- Labor force participation typical of a younger population at 66.7%.
- Traditional values are the norm here—faith, country and family.
- Prefer to buy American and for a good price.
- Comfortable with the latest in technology, for convenience (online banking or saving money on landlines) and entertainment.

Market Profile

- Residents are partial to trucks, SUVs, and occasionally, convertibles or motorcycles.
- Entertainment is primarily family-oriented, TV and movie rentals or theme parks and family restaurants.
- Spending priorities also focus on family (children's toys and apparel) or home DIY projects.
- Sports include hunting, target shooting, bowling and baseball.
- TV and magazines provide entertainment and information.
- Media preferences include country and Christian channels.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Best Retail Businesses: Oregon: State House District 17

This chart shows the types of businesses that consumers are leaving an area to find. The business types represented by blue bars are relatively scarce in the area, so consumers go elsewhere to have their needs met. The beige business types are relatively plentiful in the area, meaning there are existing competitors for the dollars that consumers spend in these categories.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
