In this area

In the United States

## 2.2%

## of households fall into this segment

#### An overview of who makes up this segment across the United States

#### Who We Are

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. One out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes: over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value and average rent are close to the U.S. averages. Residents of this segment are physically active and up on the latest technology.

#### Our Neighborhood

- Approximately 56% of the households rent; 44% own their homes.
- Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent and single-person households.
- Multi-unit buildings or row housing make up 55% of the housing stock (row housing, buildings with 5-19 units); 44% built 1980-99.
- Average rent is slightly higher than the U.S. average.
- Lower vacancy rate is at 8.9%.

#### Socioeconomic Traits

- Education completed: 36% with some college or an associate's degree, 30% with a bachelor's degree or higher. Education in progress is 10%.
- Unemployment rate is lower at 7.1%, and labor force participation rate of 73% is higher than the U.S. rate.
- These consumers are up on the latest technology.
- They get most of their information from the Internet.
- Concern about the environment impacts their purchasing decisions.

#### Market Profile

- Own U.S. savings bonds.
- Own newer computers (desktop, laptop or both), iPods and 2+ TVs.
- Go online to do banking, access YouTube or Facebook, visit blogs, and play games.
- Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information.
- Find leisure going to bars/clubs, attending concerts, going to the zoo, and renting DVDs from Redbox or Netflix.
- Read sports magazines and participate in a variety of sports, including backpacking, basketball, football, bowling, Pilates, weight lifting and yoga.
- Eat out often at fast-food and family restaurants.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

## About this segment Metro Renters

Thisisthe

#2 dominant segment for this area 8.2% of households fall

into this segment

In this area

In the United States

## 1.6%

## of households fall into this segment

#### An overview of who makes up this segment across the United States

#### Who We Are

to get around the city.

Residents in the highly mobile and educated Metro Renters market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastestgrowing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Residents' income is close to the U.S. average, but they spend a large portion of their wages on rent, clothes and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi

#### Our Neighborhood

- Over half of all households are occupied by singles, resulting in the smallest average household size among the markets, 1.66.
- Neighborhoods feature 20+ unit apartment buildings, typically surrounded by offices and businesses.
- Renters occupy close to 80% of all households.
- Public transportation, taxis, walking and biking are popular ways to navigate the city.

### Socioeconomic Traits

- Well-educated consumers, many currently enrolled in college.
- Very interested in the fine arts and strive to be sophisticated; value education and creativity.
- Willing to take risks and work long hours to get to the top of their profession.
- Become well informed before purchasing the newest technology.
- Prefer environmentally safe products.
- Socializing and social status very important.

#### Market Profile

- Enjoy wine at bars and restaurants.
- Shop at Trader Joe's and Whole Foods for groceries; partial to organic foods.
- Own a Mac computer and use it for reading/writing blogs, accessing dating websites, and watching TV programs and movies.
- Favorite websites: Facebook, Twitter, YouTube and LinkedIn.
- Use a tablet for reading newspapers and magazines.
- Participate in leisure activities including yoga, Pilates and downhill skiing.
- Shop for clothes at Banana Republic, The Gap and Nordstrom.

The demographic segmentation show n here can help you understand the lifestyles and life stages of consumers in a market. ## About this segment Soccer Moms

Thisisthe

#3 dominant segment for this area

8.0%

In this area

In the United States

## 2.9%

of households fall into this segment

of households fall into this segment

#### An overview of who makes up this segment across the United States

### Who We Are

Soccer Moms is an affluent, familyoriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and familyoriented pursuits.

#### Our Neighborhood

- Soccer Moms residents prefer the suburban periphery of metropolitan areas.
- Predominantly single family, homes are in newer neighborhoods, 36% built in the 1990s, 31% built since 2000.
- Owner-occupied homes have high rate of mortgages at 74%, and low rate vacancy at 5%
- Median home value is \$226,000.
- Most households are married couples with • children; average household size is 2.96.
- Most households have 2 or 3 vehicles: long . travel time to work including a disproportionate number commuting from a different county

#### Socioeconomic Traits

- Education: 37.7% college graduates; more than 70% with some college education.
- Low unemployment at 5.9%; high labor force participation rate at 72%; 2 out of 3 households include 2+ workers.
- Connected, with a host of wireless devices from iPods to tablets anything that enables convenience, like banking, paying bills or even shopping online.
- Well insured and invested in a range of funds, from savings accounts or bonds to stocks.
- Carry a higher level of debt, including first and second mortgages and auto loans

#### Market Profile

- Most households own at least two vehicles: the . most popular types are minivans and SUVs.
- Family-oriented purchases and activities dominate, like 4+ televisions, movie purchases or rentals, children's apparel and toys, and visits to theme parks or zoos.
- Outdoor activities and sports are characteristic of life in the suburban periphery, like bicycling, jogging, golfing, boating, and target shooting.
- Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like riding mowers and tillers.

The demographic segmentation show n here can help you understand the lifestyles and life stages of consumers in a market. #### An overview of who makes up this segment across the United States

#### Who We Are

Gen Y comes of age: Well-educated young workers, some of whom are still completing their education, are employed in professional/technical occupations, as well as sales and office/administrative support roles. These residents are not established yet, but striving to get ahead and improve themselves. This market ranks in the top 5 for renters, movers, college enrollment and labor-force participation rate. Almost 1 in 5 residents move each year. Close to half of all householders are under the age of 35, the majority living alone or in shared nonfamily dwellings. Median household income is still below the U.S. average. Smartphones are a way of life, and they use the Internet extensively. Young and Restless consumers are diverse, favoring densely populated neighborhoods in large metropolitan areas; more than 50 percent are located in the South (almost a fifth in Texas), with the rest chiefly in the West and Midwest.

#### Our Neighborhood

- One of the youngest markets Half the householders under age 35; median age 29.4.
- Primarily single-person households with some shared households.
- Highly mobile market, beginning careers and changing addresses frequently.
- Naturally, one of the top five renter markets.
- Apartment rentals popular: 45% in 5-19 unit buildings, 26% in 20+ unit buildings.
- Majority of housing built in 1970 or later (83%).

#### Socioeconomic Traits

- Education completed: 2 out of 3 have some college, an associate's degree, or a bachelor's degree or higher. Education in progress: almost 15% are still enrolled in college.
- Labor force participation rate is exceptionally high at 75.4%; unemployment is low at 7.8%.
- These are careful shoppers, aware of prices, and demonstrate little brand loyalty.
- They like to be the first to try new products, but prefer to do research before buying the latest electronics.
- Most of their information comes from the Internet and TV, rather than traditional media.
- Carry their cell phone everywhere they go.

#### Market Profile

- No landline telephone for majority of households, preferring a cell phone only.
- Use their cell phone to text, listen to music, pay bills, redeem coupons, look up directions and access financial information.
- Online activities include banking (with paperless statements), purchasing items on eBay, accessing Twitter and Facebook, and watching movies and TV shows.
- Enjoy dancing, playing pool, watching MTV and Comedy Central programs, reading fashion magazines and playing volleyball.
- Listen to blues, jazz, rap, hip hop, and dance music and read music magazines.
- Purchase natural/organic food, but frequent fast food restaurants.

The demographic segmentation show n here can help you understand the lifestyles and life stages of consumers in a market. ## About this segment Home Improvement

Thisisthe

#5 dominant segment for this area

7 7%

In this area

In the United States

of households fall into this segment

of households fall into this segment

#### An overview of who makes up this segment across the United States

### Who We Are

Married-couple families occupy well over half of these suburban households. Most Home Improvement residences are single-family homes that are owner occupied, with only one-fifth of the households occupied by renters. Education and diversity levels are similar to the U.S. as a whole. These families spend a lot of time on the go and therefore tend to eat out regularly. When at home, weekends are consumed with home improvement and remodeling projects.

#### Our Neighborhood

- These are low-density suburban neighborhoods.
- Eight of every 10 homes are traditional singlefamily dwellings, owner occupied.
- Majority of the homes were built between 1970 and 2000.
- More than half of the households consist of married-couple families; another 12% include single-parent families.

#### Socioeconomic Traits

- Higher participation in the labor force and lower unemployment than US levels; most households have 2+ workers.
- Cautious consumers that do their research before buying, they protect their investments.
- Typically spend 4-7 hours per week commuting, and, therefore, spend significant amounts on car maintenance (performed at a department store or auto repair chain store).
- They are paying off student loans and second mortgages on homes.
- They spend heavily on eating out, at both fastfood and family restaurants.
- They like to work from home, when possible.

#### Market Profile

- Enjoy working on home improvement projects and watching DIY networks.
- Make frequent trips to warehouse/club and home improvement stores in their minivan or SUV.
- Own a giant screen TV with fiber-optic connection and premium cable; rent DVDs from Redbox or Netflix.
- Very comfortable with new technology; embrace the convenience of completing tasks on a mobile device.
- Enjoy dining at Chili's, Chick-fil-A and Panera Bread.
- Frequently buy children's clothes and toys.

Update Frequency: Monthly		

#### Best Retail Businesses: Oregon: State Senate District 15

This chart shows the types of businesses that consumers are leaving an area to find. The business types represented by blue bars are relatively scarce in the area, so consumers go elsewhere to have their needs met. The beige business types are relatively plentiful in the area, meaning there are existing competitors for the dollars that consumers spend in these categories.

Data Source: Retail Marketplace via Esri, 2017

## About RPR (Realtors Property Resource)

- Realtors Property Resource<sup>®</sup> is a wholly owned subsidiary of the National Association REALTORS<sup>®</sup>.
- RPR offers comprehensive data including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

## About RPR's Data

OREGON

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- Listing data from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- Market conditions and forecasts based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- School data and reviews from Niche.
- Specialty data sets such as walkability scores, traffic counts and flood zones.

## **Update Frequency**

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
