An overview of who makes up this segment across the United States

Who We Are

Professional Pride consumers are well-educated career professionals who have prospered through the Great Recession. To maintain their upscale suburban lifestyles, these goal-oriented couples work, often commuting far and working long hours. However, their schedules are fine-tuned to meet the needs of their school-age children. They are financially savvy; they invest wisely and benefit from interest and dividend income. So far, these established families have accumulated an average of \$1.5 million in net worth, and their annual household income runs at more than twice the U.S. average. They take pride in their newer homes and spend valuable time and energy upgrading. Their homes are furnished with the latest in home trends, including finished basements equipped with home gyms and in-home theaters.

Our Neighborhood

- Typically owner-occupied, single-family homes are in newer neighborhoods: 59% of units were built in the last 20 years.
- Neighborhoods are primarily located in the suburban periphery of large metropolitan areas.
- Most households own two or three vehicles; long commutes are the norm.
- Homes are valued at more than twice the U.S. median home value, although three out of four homeowners have mortgages to pay off.
- Families are mostly married couples (almost 80% of households), and more than half of these families have kids. Their average household size, 3.11, reflects the presence of children.

Socioeconomic Traits

- Professional Pride consumers are highly qualified in the science, technology, law or finance fields; they've worked hard to build their professional reputation or their start-up businesses.
- These consumers are willing to risk their accumulated wealth in the stock market.
- They have a preferred financial institution, regularly read financial news, and use the Internet for banking transactions.
- These residents are goal oriented and strive for lifelong learning and learning.
- Life here is well organized; routine is a key ingredient to daily life.

Market Profile

- These frequent travelers take several domestic trips a year, preferring to book their plane tickets, accommodations and rental cars via the Internet.
- Residents take pride in their picture-perfect homes, which they continually upgrade. They shop at Home Depot and Bed Bath & Beyond to tackle the smaller home improvement and remodeling tasks but contract out the larger projects.
- To keep up with their busy households, they hire housekeepers or professional cleaners.
- Residents are prepared for the ups and downs in life; they maintain life insurance; homeowners and auto insurance; as well as medical, vision, dental, and prescription insurance through work. They are actively investing for the future; they hold 401(k) and IRA retirement plans, plus securities.
- Consumers spend on credit but have the disposable income to avoid a balance on their credit cards. They spend heavily on Internet shopping; Amazon.com is a favorite website.
- Consumers find time in their busy schedules for themselves. They work out in their home gyms, owning at least a treadmill, an elliptical or weightlifting equipment. They also visit the salon and spa regularly.
- All family members are avid readers; they read on their smartphones, tablets and e-readers but also read hard copies of epicurean, home service and sports magazines.
- Residents, both young and old, are tech savvy; they not only own the latest and greatest in tablets, smartphones and laptops but actually use the features each has to offer.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. About this segment

Metro Renters

This is the

#2

dominant segment
for this area

In this area

21.5%

of households fall
into this segment

In the United States

1.6%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Residents in the highly mobile and educated Metro Renters market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastest-growing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Residents' income is close to the U.S. average, but they spend a large portion of their wages on rent, clothes and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

Our Neighborhood

- Over half of all households are occupied by singles, resulting in the smallest average household size among the markets, 1.66.
- Neighborhoods feature 20+ unit apartment buildings, typically surrounded by offices and businesses.
- Renters occupy close to 80% of all households.
- Public transportation, taxis, walking and biking are popular ways to navigate the city.

Socioeconomic Traits

- Well-educated consumers, many currently enrolled in college.
- Very interested in the fine arts and strive to be sophisticated; value education and creativity.
- Willing to take risks and work long hours to get to the top of their profession.
- Become well informed before purchasing the newest technology.
- Prefer environmentally safe products.
- Socializing and social status very important.

Market Profile

- Enjoy wine at bars and restaurants.
- Shop at Trader Joe's and Whole Foods for groceries; partial to organic foods.
- Own a Mac computer and use it for reading/writing blogs, accessing dating websites, and watching TV programs and movies.
- Favorite websites: Facebook, Twitter, YouTube and LinkedIn.
- Use a tablet for reading newspapers and magazines.
- Participate in leisure activities including yoga, Pilates and downhill skiing.
- Shop for clothes at Banana Republic, The Gap and Nordstrom.

About this segment

Boomburbs

This is the
#3
dominant segment
for this area

In this area
12.3%
of households fall
into this segment

In the United States
1.6%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Young professionals with families who have opted to trade up to the newest housing in the suburbs make up this growth market. Original Boomburbs neighborhoods began growing in the 1990s and continued through the peak of the housing boom. Most of those neighborhoods are fully developed now. This is an affluent market but with a higher proportion of mortgages. Rapid growth still distinguishes the Boomburbs neighborhoods, although the boom is more subdued now than it was 10 years ago. So is the housing market. Residents are well-educated professionals with a running start on prosperity.

Our Neighborhood

- Growth markets are in the suburban periphery of large metropolitan areas.
- Young families are married with children; average household size is 3.22.
- Home ownership is 84%, with the highest rate of mortgages, 78%.
- Primarily single-family homes, in new neighborhoods, 72% built since 2000.
- Median home value is \$293,000.
- Lower housing vacancy rate at 5.3%.
- The cost of affordable new housing comes at the expense of one of the longest commutes to work, over 30 minutes average, including a disproportionate number (34.5%) commuting across county lines.

Socioeconomic Traits

- Well-educated young professionals, 52% are college graduates.
- Unemployment is low at 5.2%; high labor force participation at 72%; most households have more than two workers.
- Longer commute times from the suburban growth corridors have created more home workers.
- They are well connected: own the latest devices and understand how to use them efficiently; biggest complaints—too many devices and too many intrusions on personal time.
- Financial planning is well under way for these professionals.

Market Profile

- Boomburbs residents prefer late model imports, primarily SUVs, and also luxury cars and minivans.
- This is one of the top markets for the latest in technology, from smartphones to tablets to Internet connectable televisions.
- Style matters in the Boomburbs, from personal appearance to their homes. These consumers are still furnishing their new homes and already remodeling.
- They like to garden but more often contract for home services.
- Physical fitness is a priority, including club memberships and home equipment.
- Leisure includes a range of activities from sports (hiking, bicycling, swimming, golf) to visits to theme parks or water parks.
- Residents are generous supporters of charitable organizations.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Laptops and Lattes

This is the

#4

dominant segment
for this area

In this area

6.8%

of households fall
into this segment

In the United States

1.1%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Laptops and Lattes residents are predominantly single, well-educated professionals in business, finance, legal, computer and entertainment occupations. They are affluent and partial to city living--and its amenities. Neighborhoods are densely populated, primarily located in the cities of large metropolitan areas. Many residents walk, bike or use public transportation to get to work; a number work from home. Although single householders technically outnumber couples, this market includes a higher proportion of partner households, including the highest proportion of same-sex couples. Residents are more interested in the stock market than the housing market. Laptops and Lattes residents are cosmopolitan and connected--technologically savvy consumers. They are active and health conscious, and care about the environment.

Our Neighborhood

- 30-something single householders, with a number of shared households; low average household size of 1.85.
- City dwellers, primarily in apartment buildings with 2-4 units, 5-19 units, or 20+ units.
- Older housing, 2 out of 3 homes built before 1970; 42% built before 1940.
- Most households renter occupied, with average rent close to \$1,800 monthly.
- Many owner-occupied homes valued at \$500,000+.
- Majority of households own no vehicle at 36% (Index 398) or 1 vehicle (41%).

Socioeconomic Traits

- Three out of four have a bachelor's degree or higher.
- Unemployment rate is low at 5.3%; labor force participation is high, more than 75%.
- Salaries are the primary source of income for most households, but self-employment income and investment income complement the salaries in this market.
- These are health-conscious consumers, who exercise regularly and pay attention to the nutritional value of the food they purchase.
- Environmentally conscientious but also image-conscious: both impact their purchasing.

Market Profile

- Support environmental groups, recycle faithfully and contribute to arts/cultural organizations.
- Invest in mutual funds (bonds) and maintain retirement savings plans.
- Use their laptops, iPads and mobile phones extensively to stay connected.
- Spend money on nice clothes, dining out, travel, treatments at day spas, and lattes at Starbucks.
- Physical fitness a priority, exercising at a club or other facility on a regular basis.
- Enjoy sports such as jogging/running, biking, tennis, soccer, skiing, yoga and Pilates, as well as participating in fantasy sports leagues.
- Participate in leisure activities including painting, reading books or the newspaper on their iPad, watching movies rented from Netflix, hiking, backpacking, canoeing/kayaking, as well as going to bars/clubs, the beach, movies, art galleries, museums, the theater, opera and rock concerts.
- Listen to classic rock, pop/top 40, classical, jazz, reggae, blues, folk and alternative music.
- Favor organic food, purchasing groceries at higher-end markets.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Emerald City

This is the
#5
dominant segment
for this area

In this area
5.4%
of households fall
into this segment

In the United States
1.4%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Emerald City's denizens live in lower-density neighborhoods of urban areas throughout the country. Young and mobile, they are more likely to rent. Well educated and well employed, half have a college degree and a professional occupation. Incomes close to the U.S. median come primarily from wages and self-employment. This group is highly connected, using the Internet for entertainment and making environmentally friendly purchases. Long hours on the Internet are balanced with time at the gym. Many embrace the "foodie" culture and enjoy cooking adventurous meals using local and organic foods. Music and art are major sources of enjoyment. They travel frequently, both personally and for business.

Our Neighborhood

- There are mostly older, established neighborhoods with homes built before 1960; around 30% built before 1940.
- Just over half of all homes are renter occupied.
- Single-person and non-family types make up over half of all households.
- Median home value and average rent are slightly above the U.S. levels; around half of owned homes are worth \$150,000-\$300,000.

Socioeconomic Traits

- Well educated, these consumers research products carefully before making purchases.
- They buy natural, green and environmentally friendly products.
- Very conscious of nutrition, they regularly buy and eat organic foods.
- Cell phones and text messaging are a huge part of everyday life.
- They place importance on learning new things to keep life fresh and variable.
- They are interested in the fine arts and especially enjoy listening to music.

Market Profile

- Liberal segment that contributes to NPR and PBS.
- Shop at Trader Joe's and Whole Foods.
- Budget time—utilize home cleaning services so there's time for yoga.
- Use the web for professional networking, blogging and online dating.
- Read magazines and books on a tablet, sometimes while exercising at home.
- Go to art galleries and make art at home.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
