## An overview of who makes up this segment across the United States

## Who We Are

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. One out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes: over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value and average rent are close to the U.S. averages. Residents of this segment are physically active and up on the latest technology.

## Our Neighborhood

- Approximately 56% of the households rent;
   44% own their homes.
- Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent and single-person households.
- Multi-unit buildings or row housing make up 55% of the housing stock (row housing, buildings with 5-19 units); 44% built 1980-99.
- Average rent is slightly higher than the U.S. average.
- Lower vacancy rate is at 8.9%.

#### Socioeconomic Traits

- Education completed: 36% with some college or an associate's degree, 30% with a bachelor's degree or higher. Education in progress is 10%.
- Unemployment rate is lower at 7.1%, and labor force participation rate of 73% is higher than the U.S. rate.
- These consumers are up on the latest technology.
- They get most of their information from the Internet
- Concern about the environment impacts their purchasing decisions.

## Market Profile

- · Own U.S. savings bonds.
- Own newer computers (desktop, laptop or both), iPods and 2+ TVs.
- Go online to do banking, access YouTube or Facebook, visit blogs, and play games.
- Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information.
- Find leisure going to bars/dubs, attending concerts, going to the zoo, and renting DVDs from Redbox or Netflix.
- Read sports magazines and participate in a variety of sports, including backpacking, basketball, football, bowling, Pilates, weight lifting and yoga.
- Eat out often at fast-food and family restaurants.

In the United States

1.6%

of households fall into this segment

## An overview of who makes up this segment across the United States

## Who We Are

Front Porches blends household types, with more young families with children or single households than average. This group is also more diverse than the U.S. Half of householders are renters, and many of the homes are older townhomes or duplexes. Friends and family are central to Front Porches residents and help to influence household buying decisions. Residents enjoy their automobiles and like cars that are fun to drive. Income and net worth are well below the U.S. average, and many families have taken out loans to make ends meet.

## Our Neighborhood

- Nearly one in five homes is a duplex, triplex or quad; half are older single-family dwellings.
- Just over half the homes are occupied by renters
- Older, established neighborhoods; three quarters of all homes were built before 1980.
- Single-parent families or singles living alone make up almost half of the households.

## Socioeconomic Traits

- Composed of a blue-collar work force with a strong labor force participation rate, but unemployment is high at 11%.
- Price is more important than brand names or style to these consumers.
- With limited incomes, these are not adventurous shoppers.
- They would rather cook a meal at home than dine out.
- They seek adventure and strive to have fun.

## Market Profile

- Go online for gaming, online dating and chat rooms.
- Use their cell phones to redeem mobile coupons and listen to hip hop and R&B music.
- Drink energy and sports drinks.
- Participate in leisure activities including sports, indoor water parks, bingo and video games.
- Watch Comedy Central, Nickelodeon and PBS Kids Sprout.

of households fall into this segment

In the United States

1.4%

of households fall into this segment

## An overview of who makes up this segment across the United States

## Who We Are

Metro Fusion is a young, diverse market. Many residents do not speak English fluently and have moved into their homes recently. They are highly mobile. More than three-quarters of households are occupied by renters. Many households have young children; a quarter are singleparent families. The majority of residents live in midsize apartment buildings. Metro Fusion is a hard-working market with residents who are dedicated to climbing the ladders of their professional and social lives. This is particularly difficult for the single parents due to median incomes that are 35 percent lower than the U.S. average.

## Our Neighborhood

- Over 60% of the homes are multi-unit structures located in the urban periphery.
- Three quarters of residents are renters, and rents are about ten percent less than the U.S. average.
- The majority of housing units were built before 1990.
- Single-parent and single-person households make up over half of all households.

#### Socioeconomic Traits

- They're a diverse market with 30% black, 34% Hispanic and 20% foreign born.
- Younger residents are highly connected, while older residents do not have much use for the latest and greatest technology.
- They work hard to advance in their professions, including working weekends.
- They take pride in their appearance, consider their fashion trendy, and stick with the same few designer brands.
- They spend money readily on what's hot unless saving for something specific.
- Social status is very important; they look to impress with fashion and electronics.

## Market Profile

- They enjoy watching MTV, BET, Spanish TV networks and pay-per-view.
- They listen to R&B, rap, Latin and reggae music.
- · Football and soccer are popular sports.
- They shop at discount grocery stores, Kmart and Walmart.
- They often eat frozen dinners, but when dining out prefer McDonald's, Wendy's and IHOP.

## An overview of who makes up this segment across the United States

## Who We Are

Married-couple families occupy well over half of these suburban households. Most Home Improvement residences are single-family homes that are owner occupied, with only one-fifth of the households occupied by renters. Education and diversity levels are similar to the U.S. as a whole. These families spend a lot of time on the go and therefore tend to eat out regularly. When at home, weekends are consumed with home improvement and remodeling projects.

## Our Neighborhood

- These are low-density suburban neighborhoods.
- Eight of every 10 homes are traditional singlefamily dwellings, owner occupied.
- Majority of the homes were built between 1970 and 2000.
- More than half of the households consist of married-couple families; another 12% include single-parent families.

#### Socioeconomic Traits

- Higher participation in the labor force and lower unemployment than US levels; most households have 2+ workers.
- Cautious consumers that do their research before buying, they protect their investments.
- Typically spend 4-7 hours per week commuting, and, therefore, spend significant amounts on car maintenance (performed at a department store or auto repair chain store).
- They are paying off student loans and second mortgages on homes.
- They spend heavily on eating out, at both fastfood and family restaurants.
- They like to work from home, when possible.

## Market Profile

- Enjoy working on home improvement projects and watching DIY networks.
- Make frequent trips to warehouse/club and home improvement stores in their minivan or SUV.
- Own a giant screen TV with fiber-optic connection and premium cable; rent DVDs from Redbox or Netflix.
- Very comfortable with new technology; embrace the convenience of completing tasks on a mobile device.
- Enjoy dining at Chili's, Chick-fil-A and Panera Bread
- Frequently buy children's clothes and toys.
