About this segment
Middleburg

This is the	In this area	In the United States
#1	**33.8%**	**2.8%**
dominant segment for this area	of households fall into this segment	of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Middleburg neighborhoods transformed from the easy pace of country living to semi-rural subdivisions in the last decade, when the housing boom reached out. Residents are conservative, family-oriented consumers. Still more country than rock and roll, they are thrifty but willing to carry some debt and are already investing in their futures. They rely on their smartphones and mobile devices to stay in touch and pride themselves on their expertise. They prefer to buy American and travel in the U.S. This market is younger but growing in size and assets.

Our Neighborhood

- Semi-rural locales within metropolitan areas.
- Neighborhoods changed rapidly in the previous decade with the addition of new single-family homes.
- Include a number of mobile homes.
- Affordable housing, median value of $158,000 with a low vacancy rate.
- Young couples, many with children; average household size is 2.73.

Socioeconomic Traits

- Education: 66% with a high school diploma or some college.
- Unemployment rate lower at 7.4%.
- Labor force participation typical of a younger population at 66.7%.
- Traditional values are the norm here—faith, country and family.
- Prefer to buy American and for a good price.
- Comfortable with the latest in technology, for convenience (online banking or saving money on landlines) and entertainment.

Market Profile

- Residents are partial to trucks, SUVs, and occasionally, convertibles or motorcycles.
- Entertainment is primarily family-oriented, TV and movie rentals or theme parks and family restaurants.
- Spending priorities also focus on family (children's toys and apparel) or home DIY projects.
- Sports include hunting, target shooting, bowling and baseball.
- TV and magazines provide entertainment and information.
- Media preferences include country and Christian channels.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

About this segment
The Great Outdoors

This is the	In this area	In the United States
#2	**18.7%**	**1.5%**
dominant segment for this area	of households fall into this segment	of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Neighborhoods in The Great Outdoors segment are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the U.S. level.

Our Neighborhood

- More than 55% of households are married-couple families; 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available.
- Residents live in small towns and rural communities throughout the West, South and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home.

Socioeconomic Traits

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8%, but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

Market Profile

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' clubs and support various civic causes.
- Technology is not central in their lives: light use of Internet connectivity for shopping and entertainment.
- Most households have pets–dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing and boating.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Exurbanites

This is the

#3

dominant segment for this area

In this area

16.0%

of households fall into this segment

In the United States

1.9%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Exurbanites residents are approaching retirement but showing few signs of slowing down. They are active in their communities, generous in their donations, and seasoned travelers. They take advantage of their proximity to large metropolitan centers to support the arts, but prefer a more expansive home style in less crowded neighborhoods. They have cultivated a lifestyle that is both affluent and urbane.

Our Neighborhood

- Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets.
- A larger market of empty nesters, married couples with no children; average household size is 2.48.
- Primarily single-family homes with a high median value of $346,000, most still carrying mortgages.
- Higher vacancy rate at 9%.

Socioeconomic Traits

- Residents are college educated; more than half have a bachelor's degree or higher; almost 80% have some college education.
- This labor force is beginning to retire. One in three households currently receive Social Security or retirement income. Labor force participation has declined to less than 60%.
- Unemployment remains low at 5.5%; more of the residents prefer self-employment or working from home.
- Consumers are more interested in quality than cost. They take pride in their homes and foster a sense of personal style.
- Exurbanites residents are well connected, using the Internet for everything from shopping to managing their finances.
- Sociable and hardworking, they still find time to stay physically fit.

Market Profile

- Exurbanites residents' preferred vehicles are late-model luxury cars or SUVs.
- They are active supporters of the arts and public television/radio.
- Attentive to ingredients, they prefer natural or organic products.
- Gardening and home improvement are priorities, but they also use a number of services, from home care and maintenance to personal care.
- Financially active with wide-ranging investments, these investors rely on financial planners, extensive reading and the Internet to handle their money.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

About this segment
Front Porches

This is the	In this area	In the United States
#4	**6.1%**	**1.6%**
dominant segment for this area	of households fall into this segment	of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Front Porches blends household types, with more young families with children or single households than average. This group is also more diverse than the U.S. Half of householders are renters, and many of the homes are older townhomes or duplexes. Friends and family are central to Front Porches residents and help to influence household buying decisions. Residents enjoy their automobiles and like cars that are fun to drive. Income and net worth are well below the U.S. average, and many families have taken out loans to make ends meet.

Our Neighborhood

- Nearly one in five homes is a duplex, triplex or quad; half are older single-family dwellings.
- Just over half the homes are occupied by renters.
- Older, established neighborhoods; three quarters of all homes were built before 1980.
- Single-parent families or singles living alone make up almost half of the households.

Socioeconomic Traits

- Composed of a blue-collar work force with a strong labor force participation rate, but unemployment is high at 11%.
- Price is more important than brand names or style to these consumers.
- With limited incomes, these are not adventurous shoppers.
- They would rather cook a meal at home than dine out.
- They seek adventure and strive to have fun.

Market Profile

- Go online for gaming, online dating and chat rooms.
- Use their cell phones to redeem mobile coupons and listen to hip hop and R&B music.
- Drink energy and sports drinks.
- Participate in leisure activities including sports, indoor water parks, bingo and video games.
- Watch Comedy Central, Nickelodeon and PBS Kids Sprout.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment
Bright Young Professionals

This is the	In this area	In the United States
#5	**4.8%**	**2.2%**
dominant segment for this area	of households fall into this segment	of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. One out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes; over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value and average rent are close to the U.S. averages. Residents of this segment are physically active and up on the latest technology.

Our Neighborhood

- Approximately 56% of the households rent; 44% own their homes.
- Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent and single-person households.
- Multi-unit buildings or row housing make up 55% of the housing stock (row housing, buildings with 5-19 units); 44% built 1980-99.
- Average rent is slightly higher than the U.S. average.
- Lower vacancy rate is at 8.9%.

Socioeconomic Traits

- Education completed: 36% with some college or an associate's degree, 30% with a bachelor's degree or higher. Education in progress is 10%.
- Unemployment rate is lower at 7.1%, and labor force participation rate of 73% is higher than the U.S. rate.
- These consumers are up on the latest technology.
- They get most of their information from the Internet.
- Concern about the environment impacts their purchasing decisions.

Market Profile

- Own U.S. savings bonds.
- Own newer computers (desktop, laptop or both), iPods and 2+ TVs.
- Go online to do banking, access YouTube or Facebook, visit blogs, and play games.
- Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information.
- Find leisure going to bars/clubs, attending concerts, going to the zoo, and renting DVDs from Redbox or Netflix.
- Read sports magazines and participate in a variety of sports, including backpacking, basketball, football, bowling, Pilates, weight lifting and yoga.
- Eat out often at fast-food and family restaurants.

Oregon: State House District 53: Home Value Comparison

Median Estimated Home Value

This chart displays property estimates for an area and a subject property, where one has been selected. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

State House District 53	$378,770
Oregon	$355,370
USA	$241,780

12-Month Change in Median Estimated Home Value

This chart shows the 12-month change in the estimated value of all homes in this area, the county and the state. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

|	
State House District 53	+8.0%
Oregon	+5.8%
USA	+6.1%

Best Retail Businesses: Oregon: State House District 53

This chart shows the types of businesses that consumers are leaving an area to find. The business types represented by blue bars are relatively scarce in the area, so consumers go elsewhere to have their needs met. The beige business types are relatively plentiful in the area, meaning there are existing competitors for the dollars that consumers spend in these categories.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
