## About this segment

# Prairie Living

This is the  
**#1**  
dominant segment  
for this area

In this area  
**10.4%**  
of households fall  
into this segment

In the United States  
**1.1%**  
of households fall  
into this segment

## An overview of who makes up this segment across the United States

### Who We Are

Prairie Living is the most rural market, comprising about 1 percent of households, located mainly in the Midwest, with a predominance of self-employed farmers. These agricultural communities are not diverse. They are dominated by married-couple families that own single-family dwellings and many vehicles. Median household income is similar to the U.S., and labor force participation is slightly higher. Faith is important to this hardworking market. When they find time to relax, they favor outdoor activities.

### Our Neighborhood

- About four-fifths of households are owner occupied.
- Dominant household type is married-couples with no children.
- Most are single-family homes (87%) built before 1980; a higher proportion were built before 1940.
- Higher percentage of vacant housing units is at 16%.
- Most households own 2 or 3 vehicles; this is the highest-ranked market for owning 4 or more vehicles.

### Socioeconomic Traits

- Half have completed some college education or hold a degree.
- At 4.1%, the unemployment rate is less than half the U.S. rate.
- Labor force participation rate slightly higher at 66%.
- Wage and salary income for 73% of households plus self-employment income for 27%.
- Faith and religion are important to these residents.
- Tend to buy things when they need them, rather than when they want them or to be trendy.
- Somewhat resistant to new technology.
- Creatures of habit when purchasing food items.

### Market Profile

- Many own a truck, riding lawn mower, and ATV/UTV and have a satellite dish.
- They purchased plants and seeds in the past year for their vegetable garden, where their tiller comes in handy.
- They favor banking in person, have non-interest checking accounts, invest in CDs (more than 6 months), and have term/whole life insurance.
- They are pet owners.
- Leisure activities include fishing, hunting, boating, camping, and attending country music concerts.
- Residents prefer to listen to faith and inspirational, as well as country music on the radio.
- They read home service, fishing/hunting and automotive magazines.
- They contribute to religious organizations and belong to religious clubs.
- Walmart is a favorite shopping stop; Subway is a favorite eating spot.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

## About this segment

# The Great Outdoors

This is the

**#2**

dominant segment  
for this area

In this area

**9.6%**

of households fall  
into this segment

In the United States

**1.5%**

of households fall  
into this segment

## An overview of who makes up this segment across the United States

### Who We Are

Neighborhoods in The Great Outdoors segment are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the U.S. level.

### Our Neighborhood

- More than 55% of households are married-couple families; 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available.
- Residents live in small towns and rural communities throughout the West, South and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home.

### Market Profile

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' clubs and support various civic causes.
- Technology is not central in their lives: light use of Internet connectivity for shopping and entertainment.
- Most households have pets—dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing and boating.

### Socioeconomic Traits

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8%, but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. ## About this segment

# Old and Newcomers

This is the  
**#3**  
dominant segment  
for this area

In this area  
**8.3%**  
of households fall  
into this segment

In the United States  
**2.3%**  
of households fall  
into this segment

## An overview of who makes up this segment across the United States

### Who We Are

The Old and Newcomers market features singles' lifestyles, on a budget. The focus is more on convenience than consumerism, economy over acquisition. Old and Newcomers is composed of neighborhoods in transition, populated by renters who are just beginning their careers or retiring. Some are still in college; some are taking adult education classes. They support environmental causes and Starbucks. Age is not always obvious from their choices.

### Our Neighborhood

- Metropolitan city dwellers.
- Predominantly single households, with a mix of married couples (no children); average household size lower at 2.11.
- 54% renter occupied; average rent, \$800.
- 45% of housing units are single-family dwellings; 44% are multi-unit buildings in older neighborhoods, built before 1980.
- Average vacancy rate at 11%.

### Socioeconomic Traits

- Unemployment is lower at 7.8%, with an average labor force participation rate of 62.6%, despite the increasing number of retired workers.
- 30% of households are currently receiving Social Security.
- 28% have a college degree, 33% have some college education, 10% are still enrolled in college.
- Consumers are price aware and coupon clippers, but open to impulse buys.
- They are attentive to environmental concerns.
- They are more comfortable with the latest technology than buying a car.

### Market Profile

- Residents are strong supporters of environmental organizations.
- They prefer cell phones to landlines.
- Entertainment features the Internet (dating sites and games), movies at home, country music and newspapers.
- Vehicles are basically just a means of transportation.
- Food features convenience, frozen and fast food.
- They do banking as likely in person as online.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Update Frequency: Annually.

## About this segment

# Southern Satellites

This is the  
**#4**  
dominant segment  
for this area

In this area  
**7.3%**  
of households fall  
into this segment

In the United States  
**3.1%**  
of households fall  
into this segment

## An overview of who makes up this segment across the United States

### Who We Are

Southern Satellites is the second largest market found in rural settlements, typically within metropolitan areas located primarily in the South. This market is generally non-diverse, slightly older, settled married-couple families, who own their homes. Almost two-thirds of the homes are single-family structures; a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade and construction, with higher proportions in mining and agriculture than the U.S. Residents enjoy country living, preferring outdoor activities and DIY home projects.

### Our Neighborhood

- About 79% of households are owned.
- Married couples with no children are the dominant household type, with a number of multi-generational households.
- Most are single-family homes (65%), with a number of mobile homes.
- Most housing units were built in 1970 or later.
- Most households own 1 or 2 vehicles, but owning 3+ vehicles is common.

### Socioeconomic Traits

- Education: almost 40% have a high school diploma only; 41% have college education.
- Unemployment rate is 9.2%, slightly higher than the U.S. rate.
- Labor force participation rate is 59.7%, slightly lower than the U.S.
- These consumers are more concerned about cost rather than quality or brand loyalty.
- They tend to be somewhat late in adapting to technology.
- They obtain a disproportionate amount of their information from TV, compared to other media.

### Market Profile

- Usually own a truck, likely to service it themselves.
- Frequent the convenience store, usually to fill up a vehicle with gas.
- Typical household has a satellite dish.
- Work on home improvement and remodeling projects.
- Own a pet, commonly a dog.
- Participate in fishing and hunting.
- Prefer to listen to country music and watch Country Music Television (CMT).
- Read fishing/hunting and home service magazines.
- Partial to eating at low-cost family restaurants and drive-ins.
- Use Walmart for all their shopping needs (groceries, clothing, pharmacy, etc.).

Update Frequency: Annually.

## About this segment

# Midlife Constants

This is the  
**#5**  
dominant segment  
for this area

In this area  
**6.7%**  
of households fall  
into this segment

In the United States  
**2.5%**  
of households fall  
into this segment

## An overview of who makes up this segment across the United States

### Who We Are

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth. Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

### Our Neighborhood

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$141,000.

### Socioeconomic Traits

- Education: 64% have a high school diploma or some college.
- Unemployment is lower in this market at 7.4%, but so is the labor force participation rate.
- Almost 42% of households are receiving Social Security; 28% also receive retirement income.
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

### Market Profile

- Prefer practical vehicles like SUVs and trucks (domestic, of course).
- Sociable, church-going residents belonging to fraternal orders, veterans' clubs and charitable organizations and do volunteer work and fund-raising.
- Contribute to arts/cultural, educational, political and social services organizations.
- DIY homebodies that spend on home improvement and gardening.
- Media preferences: country or Christian channels.
- Leisure activities include scrapbooking, movies at home, reading, fishing and golf.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. ## Oregon: State Senate District 29: Home Value Comparison

### Median Estimated Home Value

This chart displays property estimates for an area and a subject property, where one has been selected. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

### 12-Month Change in Median Estimated Home Value

This chart shows the 12-month change in the estimated value of all homes in this area, the county and the state. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

## Best Retail Businesses: Oregon: State Senate District 29

This chart shows the types of businesses that consumers are leaving an area to find. The business types represented by blue bars are relatively scarce in the area, so consumers go elsewhere to have their needs met. The beige business types are relatively plentiful in the area, meaning there are existing competitors for the dollars that consumers spend in these categories.

Data Source: Retail Marketplace via Esri, 2017

Update Frequency: Annually

## About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

## About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

## Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
