About this segment

Senior Escapes

This is the
#1
dominant segment
for this area

In this area
19.5%
of households fall
into this segment

In the United States
0.9%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Senior Escapes neighborhoods are heavily concentrated in the warmer states of Florida, California and Arizona. These areas are highly seasonal, yet owner occupied. Many homes began as seasonal getaways and now serve as primary residences. Forty percent are mobile homes; half are single-family dwellings. About half are in unincorporated and more rural areas. Over a quarter of the population are 65-74 years old. Most are white and fairly conservative in their political and religious views. Residents enjoy watching TV, going on cruises, playing Bingo, golfing, boating and fishing. They are very conscious of their health and buy specialty foods and dietary supplements.

Our Neighborhood

- Neighborhoods include primary and second homes in rural or semi-rural settings.
- One quarter of all housing units are vacant; many are for seasonal use only.
- One-third of the households are married couples without children; a third are single-person households.
- Half the homes are single family; another 40% are mobile homes.
- Three-quarters of all homes are owner occupied, and the majority own their homes free and clear.
- Still actively driving, most households have one or two vehicles.

Socioeconomic Traits

- Labor force participation is low, but more than half the households are drawing Social Security income.
- They have conservative political views.
- They spend majority of their time with spouse/significant other or alone.
- They are limited by medical conditions but still enjoy gardening and working on their vehicles.
- They take good care of vehicles, but haven't bought a new one in over five years.
- They only spend within their means, do their banking in person, and do not carry a balance on their credit card.

Market Profile

- Stock up on good deals, especially high-fiber, low-calorie, low-fat and sugar-free foods.
- Own 3+ TVs and watch news, sports, CMT, Golf Channel and AMC.
- Belong to veterans' clubs, maintain AARP and AAA memberships.
- Get most information from TV and the Sunday newspaper; struggle with computers and the Internet.
- Travel in the U.S. via guided tours but weary of security issues.
- Frequently dine out at Denny's, Golden Corral and Cracker Barrel.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Retirement Communities

This is the

#2

dominant segment
for this area

In this area

14.5%

of households fall
into this segment

In the United States

1.2%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Retirement Communities neighborhoods are evenly distributed across the country. They combine single-family homes and independent living with apartments, assisted living and continuous care nursing facilities. Over half of the housing units are in multi-unit structures, and the majority of residents have a lease. This group enjoys watching cable TV and stays up-to-date with newspapers and magazines. Residents take pride in fiscal responsibility and keep a close eye on their finances. Although income and net worth are well below national averages, residents enjoy going to the theater, golfing and taking vacations. While some residents enjoy cooking, many have paid their dues in the kitchen and would rather dine out.

Our Neighborhood

- Much of the housing was built in the 1970s and 1980s—a mix of single-family homes and large multi-unit structures that function at various levels of senior care.
- Small household size; many residents have outlived their partners and live alone.
- Over half of the homes are renter occupied.
- Average rent is slightly below the U.S. average.
- One in five households has no vehicle.

Socioeconomic Traits

- Brand loyal, this segment will spend a little more for their favorite brands, but most likely they will have a coupon.
- Frugal, they pay close attention to finances.
- They prefer reading magazines over interacting with computers.
- They are health conscious and prefer name-brand drugs.

Market Profile

- Enjoy hard-cover books, book clubs, crossword puzzles and Sudoku.
- Contribute to political organizations and other groups.
- Entertainment preferences: bingo, opera and the theater.
- Watch QVC, Golf Channel, CNN and sports on TV.
- Like to travel—including visits to foreign countries.
- Shop at large department stores for convenience.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Midlife Constants

This is the
#3
dominant segment
for this area

In this area
10.7%
of households fall
into this segment

In the United States
2.5%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth. Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

Our Neighborhood

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$141,000.

Socioeconomic Traits

- Education: 64% have a high school diploma or some college.
- Unemployment is lower in this market at 7.4%, but so is the labor force participation rate.
- Almost 42% of households are receiving Social Security; 28% also receive retirement income.
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

Market Profile

- Prefer practical vehicles like SUVs and trucks (domestic, of course).
- Sociable, church-going residents belonging to fraternal orders, veterans' clubs and charitable organizations and do volunteer work and fund-raising.
- Contribute to arts/cultural, educational, political and social services organizations.
- DIY homebodies that spend on home improvement and gardening.
- Media preferences: country or Christian channels.
- Leisure activities include scrapbooking, movies at home, reading, fishing and golf.

About this segment

The Great Outdoors

This is the

#4

dominant segment
for this area

In this area

10.5%

of households fall
into this segment

In the United States

1.5%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Neighborhoods in The Great Outdoors segment are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the U.S. level.

Our Neighborhood

- More than 55% of households are married-couple families; 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available.
- Residents live in small towns and rural communities throughout the West, South and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home.

Market Profile

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' clubs and support various civic causes.
- Technology is not central in their lives; light use of Internet connectivity for shopping and entertainment.
- Most households have pets—dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing and boating.

Socioeconomic Traits

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8%, but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2017. Update Frequency: Annually.

About this segment

Rural Resort Dwellers

This is the
#5
dominant segment
for this area

In this area
10.2%
of households fall
into this segment

In the United States
1.0%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Although the Great Recession forced many owners of second homes to sell, Rural Resort Dwellers residents remain an active market, just a bit smaller. These communities are centered in resort areas, many in the Midwest, where the change in seasons supports a variety of outdoor activities. Retirement looms for many of these blue-collar, older householders, but workers are postponing retirement or returning to work to maintain their current lifestyles. Workers are traveling further to maintain employment. They are passionate about their hobbies, like freshwater fishing and hunting, but otherwise have very simple tastes.

Our Neighborhood

- Housing is owner-occupied, single-family homes, with some mobile homes. A strong market for second homes, these rural areas provide affordable homes valued at 8% less than the U.S. median home value. Over half of the housing units are vacant due to a high seasonal vacancy rate.
- In this older market, 42% of households consist of married couples with no children at home, while another 28% are single person. Married couples with children at home have older school-age children.
- Set in scenic rural locations with proximity to outdoor activities, two vehicles are essential to get around.

Socioeconomic Traits

- Rural Resort Dwellers residents are close to retirement. They have accumulated wealth and begun to shift their portfolios to low-risk assets. These active residents continue to work in skilled occupations.
- Simple tastes and modesty characterize these blue-collar residents. They shop for timeless, comfortable clothing, but only when something must be replaced. They pay little attention to advertising and usually stick to the brands they know.
- They spend time with their spouses and also maintain a social calendar.

Market Profile

- Residents drive older domestic vehicles and prefer to spend their disposable income on gear to support their hobbies, which include freshwater fishing, hunting with a rifle or shotgun, and motorcycling.
- At home, Rural Resort Dwellers residents spend any free time working on their vehicles and maintaining their gear. They make frequent trips to their local hardware store for parts and tools. These hands-on consumers are also passionate about vegetable gardening.
- Due to their remote locations, these neighborhoods have satellite dishes. A few residents still rely on dial-up modems to stay connected. They don't access the Internet often but will make online purchases for items difficult to find in nearby stores.
- Their taste in TV shows reflects their hobbies—Animal Planet, Discovery Channel and the DIY Network.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
