

HORIZON[®]

A LIMS for Life

Cannabis Laboratory Marketplace

HORIZON[®]

Labs in the cannabis industry

The bad:

The “wild west”

No uniform regulations across the US

No uniform laboratory certifications

No consistency in methodology

Still evidence of labs providing the “right answer”
versus giving real results...

HORIZON[®]

Labs in the cannabis industry

The good:

- A fresh opportunity

- A chance to help set proper regulations

- A chance to select the best, valid methods

- A chance to set yourself apart

- No longstanding bureaucracy

If...

HORIZON[®]

Learn and use others experience

1. Openly adopt good laboratory practices
2. Learn from mature lab industries (i.e. environmental, agricultural)
3. Properly validate methodologies and/or use existing, approved methods
4. Be the source for accurate, valid data – whether you clients want to hear it or not
5. DOCUMENT everything!

LIMS

- Half steps may work at first but eventually, you need the real thing.
- Find a complete solution
- Look for experience in other industries that mirror your own

LIMS Basics

- LIMS solutions mean tracking from cradle to grave with every step documented.
- Instrumentation and equipment should be integrated to reduce human error and speed efficiencies.
- Complete audit trails for every step of every process.

HORIZON LIMS

1. Proven track record for over 30 years
2. All staff in-house (no contracted implementers or programmers)
3. Both the LIMS and the web portal developed internally
4. Clients in multiple industries – PHL, Env., Clinical, Ag.
5. Onsite, PaaS and SaaS options are available to fit your specific needs

A LIMS for LIFE

A LIMS you will never outgrow.

At HORIZON, clients are considered partners. We care about your business and your success.
